

Envision Glider Windows

Bold Design Meets Exceptional Performance.

Vector's Envision Glider windows combine style, strength, and cutting-edge design to elevate any home. With a robust construction and sleek, sophisticated look, these windows deliver outstanding performance, featuring the flexibility of radius tops, transoms, and geometric shapes to suit a variety of architectural styles.

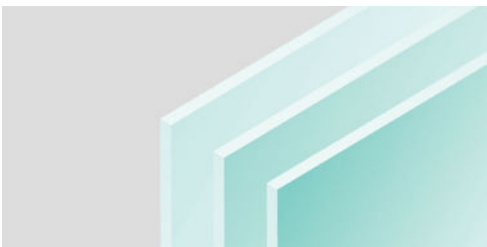

A Perfect Fit for Any Home

Envision Glider Windows are designed to fit a wide variety of spaces, offering single vent, double vent, and end-vent configurations for ultimate customization. With an anti-friction polymer sweep that consistently cleans the track, your windows will glide smoothly and silently with minimal effort, ensuring ease of use for years to come.

Sleek Concealed Hardware

The discreetly hidden sash locks maintain a sleek, uninterrupted view, enhancing the aesthetic of the home without compromising on security or performance.

Ultimate Energy Efficiency

Maximize energy savings with Envision Glider Windows, featuring dual-pane Low-E 272 glass as standard, with an optional upgrade to triple-pane glass that meets Energy Star® "Most Efficient" standards. This advanced design helps reduce heating and cooling costs, while the full-perimeter integrated nailing fin and triple weather seal create a secure, airtight fit to minimize drafts and leaks. Plus, with removable sashes, cleaning is easy and convenient.

Color & Glass Options

Interior & Exterior Color Choices

Choose from a variety of interior and exterior colors to suit your project needs.

Grid & Extension Jamb Colors

Customize your windows with grid color options and extension jamb colors.

Glass Options

Select from energy efficient LoE, clear, or tinted to meet your design needs, including options for Acoustic Glass to reduce noise and Breather Tubes for optimal performance at high altitudes.
