» Traditional Styling

3 or 4-sided Brickmould Options
The 2" contoured top and sides and a 1" subsill of the 3-sided gives the appearance of traditional wood trim.

» Exterior Paint Finishes

Vector uses a high-performance PVC coating that achieves the AAMA 615-20 standard. Independently tested by laboratories, and listed on the VCL, this finish delivers exceptional adhesion, abrasion resistance, and long-lasting color with minimal maintenance. Applied in-house using a precision spray process within a controlled environment, the coating ensures smooth, uniform coverage. It is then expertly cured to enhance durability and resist weathering.
